New England and Greater New York Chapters

**38th ANNUAL
NORTHEAST REGIONAL
SCIENTIFIC MEETING**

Marriott Mystic Hotel & Spa
Groton, Connecticut
November 7-9, 2025

MEETING DESCRIPTION

The Annual Scientific Meeting of the Greater New York and New England Chapters of the SNMMI is a continuing education course designed for nuclear medicine physicians, radiologists, technologists, and scientists. Nationally recognized faculty will provide attendees with information that will enhance clinical practice. This year's program will review nuclear medicine applications to such fields as theranostics, cardiology, neurology, oncology, therapy, brain PET radiopharmaceuticals and new SPECT/CT technology.

CALL FOR ABSTRACTS

The Greater New York/New England Chapters of the Society of Nuclear Medicine and Molecular Imaging are accepting abstracts for poster presentations at the November 7-9, 2025 Northeast Regional Meeting to be held at the Mystic Marriott Hotel and Spa in Groton, CT.

We encourage submissions of scientific abstracts, educational reports, and case reports from physicians, physicians in training, technologists, and students, including SNMMI members and non-members to either Rachel Powsner, MD of the New England Chapter (RPowsner@yahoo.com) or Jeffrey Kempf, MD of the Greater New York Chapter (Jeffrey.Kempf@univrad.com), by **Friday, October 24, 2025**.

Honoring the memory of Dr. Hussein Abdel-Dayem the top three posters judged to have the highest scientific merit during this meeting will receive the following awards:

Poster Awards

1st place: \$1,000. • 2nd place: \$750. • 3rd place: \$500.

Abstracts should be submitted as Microsoft Word documents, with a maximum word count of 500 words, and be divided into headings of Background, Methods, Results, and Conclusions. Embedded black and white images, graphs and/or tables are acceptable.

Each abstract submitted by a non-attending physician must include a supervising attending or scientist as an author and must submit the written approval of the contents of the abstract from this individual at the time of submission. Please send your submission email with your name and the title of the article in the subject line. Please include full first and last names, email addresses, and institutional affiliation for each author. If your abstract is accepted you will be asked to submit funding disclaimers for each author.

At least one author must be present for a poster to be included in the judging for monetary awards. Posters can be displayed starting at 1pm on Thursday, November 6, but must be on display by Saturday, November 8 at 9 am to be considered for monetary awards. Posters need to be removed by 12:30 pm on Saturday. The winners of the abstracts judged by a panel of experts to be of the highest merit will be announced at the conclusion of the meeting luncheon at 1:30 pm on Saturday, November 8. All accepted presentations will be in poster format (4' vertical x 8' horizontal boards).

The hotel will hold reduced room rates until October 9, 2025.

TARGET AUDIENCE

This meeting is intended for all nuclear medicine physicians, scientists, physicists, technologists, and nursing professionals.

EDUCATIONAL OBJECTIVES

After participation in these sessions attendees will be able to:

1. Discuss updates and considerations for imaging in breast oncology.
2. Discuss considerations for imaging with FES in breast cancer.
3. Provide a clinical perspective of breast imaging used for breast cancer detection.
4. Discuss the value proposition for new methodologies for SPECT/CT imaging.
5. Discuss technical considerations for full-ring CZT SPECT/CT systems.
6. Provide an overview of genomic profiling and re-differentiation for thyroid therapy.
7. Discuss the latest techniques and considerations in pediatric imaging including the clinical use of PET/MRI.
8. Provide an update on SNMMI advocacy initiatives in 2025.
9. Discuss clinical uses of radiopharmaceuticals for brain imaging; established and emerging.
10. Provide a clinical and research update on FAPI tracers.
11. Discuss immune checkpoint inhibitors used for molecular imaging.
12. Discuss considerations for developing a cardiac PET program in a community hospital setting.
13. Discuss consideration for using F18-Flurpiridaz in clinical practice including protocols and myocardial blood flow.
14. Discuss the clinical use of TAU and Amyloid agents in brain imaging including considerations for quantitation.
15. Provide an overview of dual tracer imaging in oncology.
16. Discuss neuroimaging for anti-amyloid therapy enrollment and monitoring.
17. Identify challenging clinical situations and sources of artifact and error in various SPECT and PET imaging procedures.
18. Provide an update on NET Imaging, Lutathera theranostics and response to therapy.
19. Provide an update on PSMA Imaging, PSMA theranostics, and response to therapy.
20. Discuss the integration of coronary calcium assessment from cardiac hybrid nuclear/CT imaging.
21. Discuss extracardiac findings in attenuation CT scans used for SPECT and PET imaging.
22. Provide an update for AI in Imaging.

NUCLEAR MEDICINE TECHNOLOGISTS: VOICE CATEGORY A CREDITS

The SNMMI, through its Verification of Involvement in Continuing Education (VOICE) program, has approved this meeting to offer continuing education hours (CEHs), final hour count TBD closer to the meeting. VOICE-approved credit is recognized by most licensure states and by the NMTCB and ARRT as Category A credit. Participants will receive CE credit for those sessions at which they were present a minimum of 80% of the session.

PHYSICIAN: CONTINUING MEDICAL EDUCATION

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the Society of Nuclear Medicine and Molecular Imaging, Inc. (SNMMI) and the New England and Greater New York Chapters, SNMMI. The SNMMI is accredited by the ACCME to provide continuing medical education for physicians.
